

BENEFITS:

IMPROVED COLOR & GROWTH

EXTENDED GREENING

QUICK AVAILABILITY

LOW PHYTOTOXICITY

Iron Maid is a superior iron compound for use on fairways, roughs, and sports fields. Regular applications of *Iron Maid* will ensure linear availability of iron throughout the growing season. *Iron Maid* is not a complete nutrient package and, therefore, should be used in conjunction with a sound nutrient program. *Iron Maid* is not intended for use on golf greens. Tank mix growth regulators with *Iron Maid* and *Raider TG* for enhanced uptake and to negate the yellowing caused by growth regulators.

NUTRIENT ANALYSIS

Total Nitrogen (N)	15.00%
15.00% Urea Nitrogen	
Sulfur (S)	1.20%
Iron (Fe)	6.00%

Derived from urea and ferrous sulfate heptahydrate.

Net Weight: 10.55 lb/gal (1.264 kg/L)

PROFESSIONAL USE GUIDELINES ②

APPLICATION:

Apply with any equipment that delivers a fine, even spray mist to the target area utilizing 02-04 tips for a total spray volume of 20-40 gpa (200-350 L/ha). Do not water in. Wait at least 2 hours to irrigate.

RATE OF APPLICATION:

For iron deficient situations, apply at the rate of 3-6 fl oz / 1000 sq ft (10-20 L/ha) when color decline is observed. For maintenance applications, apply 1.5-3.0 fl oz / 1000 sq ft (5-10 L /ha) every two to three weeks as indicated by soil report or plant requirements. *Iron Maid* can be used in injection systems at the rate of 50-100 ppm concentration.

COMPATIBILITY:

Iron Maid is tank mix compatible with many systemic fungicides, insecticides, and nutrient solutions. Jar test when in doubt. For best mixing results, remove tank strainer prior to product addition.
